

Freeride

At what point does the human body begin to suffer from frostbite? This is what your mind thinks when you're barreling down a black diamond in Vail in nothing but your bathing suit and your favorite set of powder skis. I should have still been lounging in the hot tub with Annalise as the snow came down. Of course, her father should have still been away on business for at least another day. Guess we were both in for a surprise.

FEATURES

Freeride

Whether it be at the office or plummeting down a ski slope in the middle of the night, you need to be able to adapt to changing circumstances. That's why we've developed the Freeride. Equipped with a myriad of different parts and adjustments, the Freeride allows you to build a chair that suits all of your specific needs, and can be tailored to fit anyone in the office – from a promising intern to a high-rise executive. Just make sure to bring an extra pair of gloves. It's chilly at the top.
