The privacy space and mini-spaces allows one or two people to retreat to perform work that requires concentration. It is important to understand that concentration and collaboration are complementary modes: one can not be sacrificed without having an impact on the other.

Les mini-espaces permettent à une ou à deux personnes de se retirer pour effectuer un travail qui nécessite de la concentration. Il est important de savoir que la concentration et la collaboration sont des modes complémentaires, et que l'un ne peut pas être sacrifié sans avoir une repercussion sur l'autre.
