

Edge is a European designed desking, benching and table system that promotes communication and openness with contemporary style. Edge offers long stride, technology friendly workstations, tables and storage at a very attractive price point. Start with a single desk and easily expand or reconfigure to continuous benching and workstations.

FEATURES

Edge is available in 2 different triangular leg styles, Standard and Executive. The Standard leg and beam system allow for modular linking. The Executive is ideal for long span tables up to 96" span as Private Office table desks. Edge benches offer retracting work surfaces allowing easy slide access to power and data in the wire tray. It also has lateral wire management, leg wire management, optional modesty panels, privacy panels and incremental height adjustable legs. Modesty and privacy panels can be specified in a variety of acrylic colors that give Edge a modern, contemporary look.
