

## Quick Charging HUB

Scepter Dock 1600

### Product Overview

The Scepter DOCK-1600 Series is a freestanding triangular charging hub built for collaborative and high-traffic environments. Constructed with a steel base and aluminum body, it integrates AC, USB, and Qi wireless charging into one durable unit.

Available in four heights and three finishes, the Scepter adapts seamlessly for seated, counter, and standing applications.

Scepter S  
19.75"
