

LED Task Light

LEDTL-6 SERIES

Product Overview

The LEDTL-6 task light has a slender profile and offers several adjustable features that make it the most versatile & efficient LED task light yet. It is perfect for those in need of under-shelf and/or under-cabinet lighting as they are designed to be concealed under the surface—leaving your workspace efficiently lit and clutter-free. This LED fixture is equipped with a one-touch adjustable dimmer. Mounting is simple with its built-in mounting tabs or using the optional magnetic mounting (NOT INCLUDED). Once mounted, the LEDTL-6 can lay flat on the surface or be adjusted up to a 90° angle.
